Dear LEGO Shop At Home Service,

We not only love your product, but we also would like to commend you for the cordial and efficient manner in which we were treated today.

I anticipated an argument upon phoning your office after opening my son's LEGO® order and finding 3 packages instead of the 4 we ordered and paid for. Your customer service representative did not give me the third degree or question the truth of the matter. She apologized and said that the item would be shipped immediately. I was in shock!

Thank you so much! It's been truly refreshing to deal with your company.
